Build a garden scarecrow

Materials:

- 2 pieces of wood (eg. tomato stake) One longer than the other
- a pillow case/ hessian sack (for head)
- a shirt
- a pair of pants/overalls
- string
- straw or similar stuffing
- stockings
- a marking pen

Steps:

1. Make a cross with the two poles. Use the smaller one as the horizontal cross bar and tie together with a stocking
2. Put the clothes over the poles
3. Stuff with straw
4. Push the pole into the ground to stand the scarecrow in the desired position in the garden
5. Stuff the pillow with straw, close the bottom with string but leave space to allow it to be pushed on top of the stick to make the head
6. Draw the face of the scarecrow and add the hair and then the hat
